

EJEMPLO INSTALACION / INSTALLATION EXAMPLE / EXEMPLE D'INSTALLATION

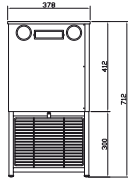

V-100

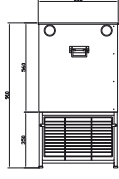

VP-30+GRIFO

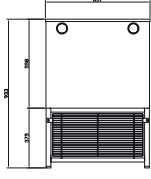

V-30

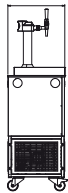

V-50

V-100

V-200

VP-100

CARACTERÍSTICAS TÉCNICAS

- Exterior en acero inox
- Cuba interior de fibra de poliéster
- Serpentín evaporador de tubo de cobre
- Serpentín producido en acero inox AISI-304 18/10
- Bomba agitador interior
- Equipo compresor alto par de arranque
- Control electrónico espesor de hielo
- Rejilla para ventilación en plástico o metálicas
- VP incluye columna, bandeja, grifo y ruedas.

TECHNICAL DATA

- Exterior in stainless steel
- Interior in polyester fibre
- Copper coil for evaporator
- Stainless steel internal coil for liquid coolant
- Internal pump agitator
- Ventilated hermetic compressor set
- Electronic equipment for ice thickness control
- Plastic or metal ventilation grilles
- VP included tray, faucet, column and wheels

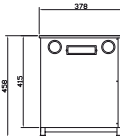

CARACTÉRISTIQUES TECHNIQUES

- Extérieur en acier inoxydable
- Cuve intérieure en fibre de polyester
- Serpentín evaporador en tubo de cobre
- Serpentín produit en acier inoxydable AISI 304 18/10
- Agitateur-Pompe interne.
- Compresseur à haut couple de démarrage
- Contrôle électronique de l'épaisseur de la glace.
- Grille de ventilation en plastique ou métal.
- VP comprend un plateau colonne, robinet et roues

CARACTERÍSTICAS TÉCNICAS

- Exterior en acero inox AISI-304 18/1
- Cuba interior de fibra de poliéster
- Serpentín evaporador de tubo de cobre
- Serpentín producido en acero inox AISI-304 18/10
- Bomba agitador interior
- Equipo compresor alto par de arranque
- Control electrónico espesor de hielo
- Rejilla para ventilación en plástico o metálicas

- Plastic or metal ventilation grilles

CARACTÉRISTIQUES TECHNIQUES

- Extérieur en acier inoxydable AISI 304 18/10,
- Cuve intérieure en fibre de polyester
- Serpentín evaporador en tube de cuivre.
- Serpentín produit en acier inoxydable AISI 304 18/10
- Agitateur-Pompe interne.
- Compresseur à haut couple de démarrage
- Contrôle électronique de l'épaisseur de la glace.
- Grille de ventilation en plastique ou métal.
